• • STRAWBERRIES

SPRING BERRIES

✓ Premier Early

Premier the nearest frostproof of any variety grown. Because of its great hardiness and persistent blooming the plants are sturdy, healthy and long rooted making them drought resistant. The vines bear an enormous crop of large sized berries. While the berry is bright red clear to the center.

100 — \$2.00 500 — \$7.00

• ↓ The New Robinson

This variety originated in Michigan and has been very successful the past four years. Berries ripen over a long period and it is a very heavy producer. Fruit is large, firm, conical shaped, has excellent flavor and stands shipping very well. A good canner and market berry.

100 — \$2.00 500 — \$7.00

• ↓ Senator Dunlap

This variety is known as a canning berry and is contracted for by many canning factories. The berries are medium to large in size and have a deep red color to the core.

100 — \$2.00 500 — \$7.00

• ↓ Special

Midseason. One of the best. A big, hardy, strong grower that produces big crops of large round, sparkling, solid berries. Excellent for home garden or market. Good Freezers.

100 — \$2.00 500 — \$7.00

• ↓ Black Beauty Late

A large sweet berry, starts to ripen when others are about gone.

100 — \$2.00 500 — \$7.00

EVERBEARING STRAWBERRIES

✓ Gem

Will commence to bear about 60 days after planted and will continue to do so all summer and up until cold weather sets in.

100 — \$3.00 500 — \$12.00

• ↓ Streamliner

Here's the big new strawberry you can enjoy without sugar! Nothing finer for serving fresh, or in shortcake, or for canning. Perfect for quick freezing. Authorities agree that these large, glossy red, uniform sized fruits have the finest quality of all strawberries. Plant your patch this spring—it will start to bear in 60 to 90 days, and you'll have berries until heavy frost. Next year you'll have fruit spring, summer and fall. Streamliner has everything; fine flavor, large size, good color, heavy yield, self pollinizing. A quart of berries has been picked from a single plant—the ideal everbearer for your garden.

100 — \$3.00 500 — \$12.00

• ↓ Gemzata

High quality, heavy production through late spring, summer and fall. Develops an extra large, firm and fine textured berry. Produces highly profitable crop the second season in a matted row. A cross of the Wayzata and Gem it also does well the first season.

100 — \$3.00 500 — \$12.00

• ↓ Superfection

Berries are large, round in shape, red all the way through and of firm texture. Superfection produces a heavy fruiting row on most any soil and forms fruit stems on the young runner plants making it a heavy fruit producer. We urge you to try the new SUPERFECTION for home use or profit. The fruit will command high prices at roadside stands and markets.

100 — \$3.00 500 — \$12.00

• ↓ Wayzata

Sweet as honey. Wayzata is red clear through with no green tips.

100 — \$3.00 500 — \$12.00

All strawberries listed are perfect flowering and need no mating.
